Re: ACS-Wireless, Inc.  
CC Docket No. 94-102  
E911 Quarterly Status Report

Dear Ms. Dortch:

Pursuant to the Commission's July 10, 2006 Order granting ACS-Wireless's Petition for Limited Waiver of 95% Handset Penetration for Anchorage and Fairbanks, ACS-Wireless, Inc. ("ACS-W") submits its seventh quarterly status report.

Please contact the undersigned if you have any questions regarding this report.

Sincerely,

Alaska Communications Systems

Lisa Phillips  
Manager, Regulatory Affairs

Enclosure

**ACS-WIRELESS QUARTERLY REPORT  
E911 HANDSET PENETRATION STATUS REPORT  
February 1, 2008**

ACS-Wireless, Inc. ("ACS-W") submits its quarterly report pursuant to the Federal Communications Commission ("FCC") July 10, 2006 Order which granted ACS-W's for Petition for Limited Waiver of 95% Handset Penetration for Anchorage and Fairbanks. ACS-W submits the following information as required by the FCC's Order.

**1) The number and status of Phase II requests from PSAPs (including those requests it may consider invalid.**

*ACS-W has received a request from the Municipality of Anchorage and met the required date of June 21, 2005. ACS-W received a request from the City and Borough of Sitka with an implementation date of November 30, 2007. ACS-W continues to anticipate additional PSAP requests but has not received any others. ACS-W is now providing Phase II data for our CDMA subscribers. ACS-W is unaware of any additional requests to this date.*

**2) The dates on which Phase II service has been implemented or will be available to PSAPs served by its network.**

*June 21, 2005 for the Municipality of Anchorage.*

**3) The status of its coordination efforts with PSAPs for alternative 95% handset penetration dates.**

---

*See response to question 1 above.*

**4) Its efforts to encourage customers to upgrade to location –capable handsets.**

*ACS-Wireless notified its customers of the impending retirement of the TDMA network with a final letter of notification on January 18, 2008.*

**5) The percentage of its customers with location-capable phones.**

*Over ninety-nine percent (99.6%) of ACS subscribers are now using location-capable handsets*

**6) The status of its progress in increasing its network coverage beyond the footprint of its AMPS/TDMA facilities.**

*ACS-W's CDMA network now has coverage that compares to our TDMA network although ACS-W has not completely built over the existing TDMA/AMPS network.*

**7) Detailed information on its progress in achieving compliance and whether it is on schedule to meet the revised deadline.**

*N/A*

---

**AFFADAVIT of DAVID WILSON**
